

SUMMARY OF ST. LOUIS MARKETS.

Dullness and weakness were the features of yesterday's grain markets. Trading was light and desultory, except for a short time, when loans were letting go their holdings of corn. Foreign markets were all lower for wheat at the opening. Broomhall in his weekly report confirmed the statements that heavy rains had fallen in the Argentine. Domestic conditions were decidedly bearish. Farmers in the Northwest were still rushing their grain to market, and the receipts of wheat at Minneapolis and Duluth were much heavier than on the corresponding day last year. Receipts at St. Louis and other primary points were large. Winter wheat was on the move, and private wire advices indicated that conditions were favorable for a big yield on the next crop.

Corn opened with a slight advance, and for awhile there was a buying demand. A falling off in the export demand, heavy receipts, lower cables and liquidation in other markets started the selling movement here, and prices declined steadily.

Dec. wheat opened 1-1/2c up and closed 1-1/2c off. May opened unchanged and closed 1-1/2c off.

Dec. and May corn opened 1/2c up and closed 1/2c off.

May corn opened 1/2c up and closed 1/2c off.

In the produce market prices were mainly steady. Receipts of fruit were fair in quantity, but there was not enough top-grade stock to supply the demand. Prices were easy, except for choice grades. Potatoes were steady and cabbage a trifle higher.

Yesterday's sessions of the St. Louis Stock Exchange were the best in weeks. All prices advanced, and there was a big bullish movement in transactions. Trust Company and bank stocks were strong and much higher.

Discount rates were steady between 5 and 6 per cent for call and time loans.

The local market for cotton was quiet and unchanged.

Yesterday's bank clearings were \$4,755,332, and balances \$50,004.

MARKETS WERE EASIER FOR WHEAT AND CORN.

EUROPEAN TRADERS WERE BEARISH.

Corn Opened Strong, but Declined on Steady Profit-Taking.

Adverse weather conditions for wheat and liquidation in corn caused a general easing off in the local grain markets yesterday. Wheat receipts, both locally and at primary points, were heavy. Otherwise there was little that was new in the private wire advices. Broomhall gave credence to the reports of rain in the Argentine, as did also traders in the foreign markets, all of which combined to make the movement of spring wheat to Northwestern receiving points was reported heavy, and it was further stated that farmers were rushing their grain to market as fast as possible. The opening here was fairly steady, but selling soon broke the market and early gains were wiped out. Trading was light.

Dec. wheat opened 1-1/2c up and closed 1-1/2c off. May opened unchanged and closed 1-1/2c off.

Dec. and May corn opened 1/2c up and closed 1/2c off.

May corn opened 1/2c up and closed 1/2c off.

EASIER FEELING IN CHICAGO GRAIN MARKET.

WHEAT'S EARLY ADVANCE ON STRONG CABLES.

Corn Badly in Need of Bull Influence—Oats Show Independence.

Chicago, Nov. 1.—An easier feeling, displacing the recent urgent demand for corn, brought lower prices in dull grain markets today, and Dec. wheat closed 1/2c lower, Dec. corn 1/2c depressed, and Dec. oats 1/2c lower. Provisions closed 1/2c higher to 1/2c lower.

Corn. Took the lead of the markets at the opening and showed an early strength that promised much, starting 1/2c higher at 10:00 a.m. The cables were fairly strong, on a general demand, and but little offerings to supply them. Dec. advanced 1/2c. Profits here became tempting, and on the news of a rising wheat favoring shipping in the West, liquidation began. Business in the main was light, and later resolved itself into a scalping affair. Bulls withdrew their support on the decline, and Dec. closed weak, 1/2c down at 10:00 a.m. Receipts were 119 cars.

Wheat. Wheat needed all the bull influence for the corn pit it could get to offset weaker cables and heavy receipts. The market was dull and narrow, and for the early strength in corn maintaining a stiff opening. There was one bullish factor present in heavy clearances, but it had little effect, and Dec. closed weaker, 1/2c down at 10:00 a.m. Receipts were 119 cars.

Oats. Oats showed an independent disposition to break away from the influence of the wheat market. The market was steady, and Dec. closed 1/2c higher at 10:00 a.m. Receipts were 119 cars.

Provisions. Provisions were dull and dragging. The market was steady, and Dec. closed 1/2c higher at 10:00 a.m. Receipts were 119 cars.

Receipts and Shipments. Receipts were 119 cars. Shipments were 119 cars.

By Telegraph. New York Nov. 1.—Wheat—Receipts 2,500 cars. Shipments 2,500 cars.

By Telegraph. New York Nov. 1.—Wheat—Receipts 2,500 cars. Shipments 2,500 cars.

BULL MOVEMENT IS ON IN LOCAL SECURITIES.

TRACTIONS AGAIN ON UPWARD TURN.

Banking List Showed Large Appreciations on Stock Exchange.

Path in the future prosperity of New St. Louis was followed in the movements of the Stock Exchange yesterday. The market was so decidedly bullish that even seasoned traders marveled at the rapidity with which securities advanced. Many thousands of dollars, which had been locked up in strong boxes for months, came out for investment.

There was an immense volume of trading, and the market for stock closed much higher than on Thursday.

Tractions were again the leading feature of the market. The clamor for St. Louis Transit and United Railways preferred began at the opening and continued through the entire session. The first sale of Transit was at \$28.75. The trader who let go at this price was sorry that he spoke, for the deal was no sooner closed than \$29 was freely bid, and 250 shares sold at that figure. Still the upward movement continued. Buying orders had not been exhausted by any means. Trading proceeded in lots of 25, 50 and 100 until 250 shares had been sold at \$29.25, after which the price was bid, and the stock held at \$29.50.

There was even a wider rush for United Railways preferred, which only a short time ago was bid around \$21. High of \$23 was reached at the opening of yesterday's session. An offer of \$22 for the stock brought out 600 shares. For awhile it was held at \$22, and purchasers of 500 shares were forced to wait. The price then advanced to \$23, and the stock was sold at that figure. The upward movement continued. Buying orders had not been exhausted by any means. Trading proceeded in lots of 25, 50 and 100 until 250 shares had been sold at \$23.25, after which the price was bid, and the stock held at \$23.50.
